

Advanced Power Point Techniques

Overview of the topic:

In a follow-up to “Creating more powerful slide presentations”, this webinar provides some advanced Power Point tips that will help you to create truly dynamic presentations. Delivering an effective and powerful presentation is critical in supporting learning messages and maintaining the attention of the audience. To avoid death by PowerPoint, presenters need to evaluate how to get the most from their slides and create the best impact from their slide presentations. All in all, this webinar will provide six key techniques that will enhance your presentation, with dozens of examples and variations.

Learning Outcomes:

By the end of this workshop, participants will have the knowledge and skills to:

- Identify characteristics of slide design that leads to more effective messages
- Identify 6 key techniques to improve the development of Power Point slides
- Evaluate existing slides for improvement ideas.

Who should attend?

- Teachers, Trainers and Assessors
- Workshop Presenters
- Head of Departments
- Instructional Designers

All webinar registrants will receive a copy of the slides, a link to the webinar recording, an electronic statement of attendance and soft copies of any relevant additional resources.

Presenter:

Marc Ratcliffe is a multi-award-winning trainer, author and education entrepreneur. He is the CEO and founder of MRWED Training and Assessment, a private RTO that specialises in Trainer Training. He is a

strong advocate for "edu-tainment" and believes that learner involvement and fun are integral to student success. He continues to be an in-demand conference speaker and workshop facilitator, having presented at more than 50 conferences in a dozen countries in the past decade and was recently named as the winner of the “Best Training and Development Leadership” Award at the World Training and Development Congress in Mumbai.
