

# Effective Training Techniques – Using C.O.R.E.

## Overview of the topic:

Involvement and interaction is at the heart of effective training. When the learning is participant-centred, students retain more and are more likely to enjoy their learning experience. This session focuses on how to integrate participant-centred learning through the use of C.O.R.E. (Closers, Openers, Revisitors, Energisers). It will demonstrate how to add impact to your training with applicable openers and closers, support the revisiting of content in new and fresh ways and will outline how to engage your participants with fast, yet effective energisers. A range of additional support materials will also be provided to assist in putting C.O.R.E. into practice.

## Learning Outcomes:

By the end of this workshop, participants will have the knowledge and skills to:

- Outline the benefit of participant-centred training
- Explain the importance of C.O.R.E.
- Identify which C.O.R.E to use and when, and
- Select appropriate Closers, Openers, Revisitors and Energisers to put into practice.
