

Creating more powerful slide presentations:

Overview of the topic:

Delivering an effective and powerful presentation is critical in supporting learning messages and maintaining the attention of the audience. To avoid death by PowerPoint, presenters need to evaluate how to get the most from their slides and create the best impact from their slide presentations. This webinar will provide seven principles that can be used to create more powerful slideshow-based presentations (e.g. PowerPoint, Keynote, Haiku Deck) and deliver a better learning experience for participants.

Key speaking points:

- Review current challenges
- Explore statistics on Power Point use
- Considerations for effective visuals
- 6 tips for creating powerful slides
- Alternatives to Power Point

Outcomes participants will gain from the topic:

- Identify how slides can be enhanced to attract and maintain the interest of an audience
- Explore the design features that create the best impact
- Apply the seven principles that can be used to create more powerful slide presentation

Presenter:

Marc Ratcliffe is a multi-award-winning trainer, author and education entrepreneur. He is the CEO and founder of MRWED Training and Assessment, a private RTO that specialises in

Trainer Training. He is a strong advocate for "edutainment" and believes that learner involvement and fun are integral to student success. He continues to be an in-demand conference speaker and workshop facilitator, having presented at more than 50 conferences in a dozen countries in the past decade and was recently named as the winner of the "Best Training and Development Leadership" Award for 2017 at the World Training and Development Congress in Mumbai.
